Reasons for Allowance

1. Claims 1-13 are allowed.

2. The following is an Examiner's statement of reasons for allowance.

Claims 1-13 recite novel features of a method of 3D object reconstruction from a video sequence of 2D images using a generic object model, including the steps of:

establishing a processing system;

producing a video sequence of 2D images of the object;

introducing in the processing system the video sequence of the 2D images of the object;

generating a 3D estimate defining an intermediate computer generated model of the object;

evaluating distortion level of the 3D estimate to obtain data on error contained in the 3D estimate;

optimizing the 3D estimate by:

a) introducing in the processing system a generic object model,

b) **smoothing the 3D estimate by correcting the same for the errors continued therein by comparing the 3D estimate with the generic object model,** and

c) generating a final 3D computer generated object model.

The prior art of record fails to anticipate or make obvious the novel features (strong *emphasis added on underlined claim limitations*) as discussed above.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
